Energy Labelling Statement

Date: 6 November 2026

TTplus Limited, the manufacturer and brand owner of TTfone mobile phones, confirms that the products listed below are supplied to customers in Great Britain.

Mobile phones are not subject to energy labelling requirements in Great Britain. These products therefore have no energy efficiency class, and no energy label or product information sheet has been issued for them. The energy efficiency class for each product is **not applicable (NA)**.

In addition, none of these products falls within the scope of Commission Delegated Regulation (EU) 2023/1669, the energy labelling regulation for smartphones and slate tablets. That regulation applies only to smartphones with a touchscreen display of 4 inches (10.16 cm) or more and less than 7 inches, and to slate tablets of 7 inches or more. Every model listed below has a display smaller than 4 inches, and the feature phones listed are not smartphones.

Products covered
