Parts List

Label	Part Number	Description	Qty	Part Image
A	N101000700	226W Solar Panel Kit Folding	1	

SAFETY INFORMATION

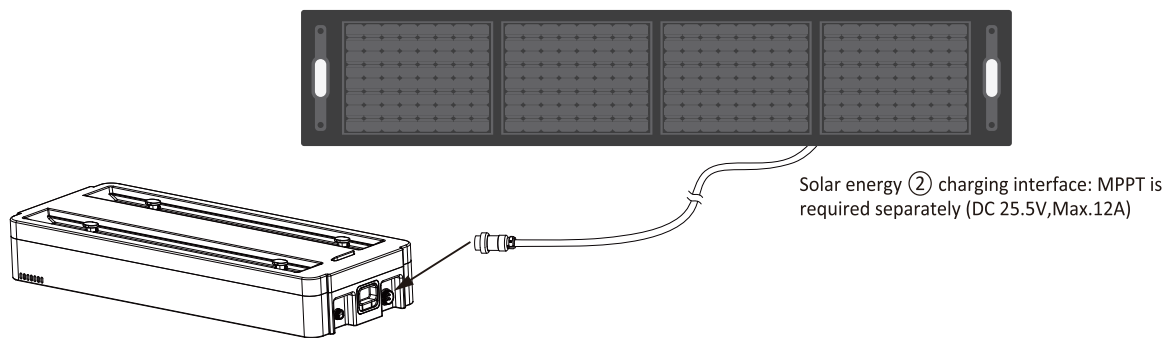

- Keep your solar blanket, Controller & battery away from any liquids at all times.
- Keep the solar blanket and controller clean at all times (always check connectors to ensure they're free of grit before plugging them in).
- This appliance is not intended to be used by people (including children) with reduced physical or mental capabilities, or those who are under the influence of drugs or alcohol.
- Do NOT use the solar blanket to charge non-rechargeable batteries. Doing so may result in harm to the user and/or damage the solar blanket and controller. Only use the provided solar blanket, regulator and adaptors/ wiring provided in the kit.
- Explosive gases. The battery should be mounted in a well-ventilated area, as far as possible from any ignition sources. Do NOT smoke or have a naked flame in the vicinity of the battery under charge.
- Never tamper with or pull any component of the solar blanket, regulator or wiring apart. If you do so, you will void the warranty.
- Always store the solar blanket folded, protected from the weather and with good ventilation.
- Ensure nothing sharp or heavy could potentially damage the solar blanket during transport or storage.
- Only use the solar blanket to charge 25V batteries.
- Blanket & Controller should not be used with nickel metal hydride batteries.
- Do not place solar blanket on your vehicle's bonnet or paintwork during use.

SOLAR BLANKET SPECIFICATIONS

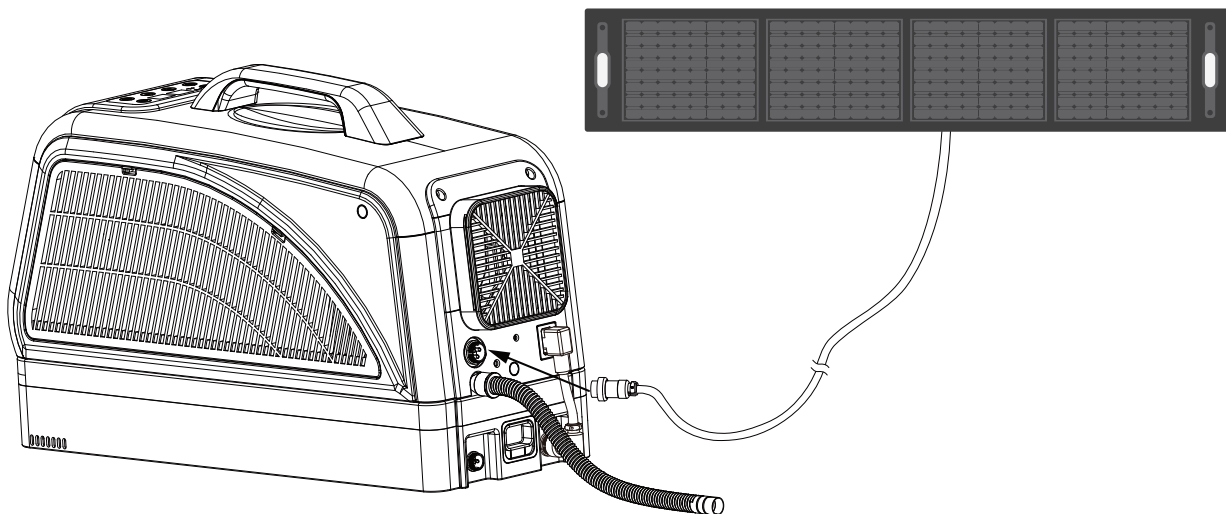

Voltage at Pmax (Vmp)	24V
Current at Pmax (Imp)	9.41A
Open-Circuit Voltage (Voc)	28.8V
Short-Circuit Current (Isc)	9.98A
Net Weight	17.81lbs
Dimensions (Closed)	24.80x 30.71x 1.97in
Dimensions (Opened)	98.23x24.8x1.18in

INSTRUCTIONS

- Find a suitable location to unfold the Solar Blanket, away from sharp objects, liquids and Solar other hazards that could damage your solar blanket. Ensure there is sufficient space for the Blanket to be spread out fully.
- Whilst unfolding, take care with the panels making sure they do not bend.
- The warranty period is one year.

Use solar panels to charge the battery separately

When the air conditioner and the battery are normally connected by the connecting wire, the solar panel can be used to replenish the battery at the same time when the air conditioner is normally started.
