

# Four360 S

ECE R129/03, 40–150 cm

A child car seat for all size categories. The long duration of use, from birth up to a height of 150 cm, makes the Four360 S so unique.

The installation of the child car seat in the size class 40 to 105 cm proves to be easy thanks to Isofix connectors and Top-Tether belt. Especially important for the safety of the little ones is the transport against the direction of travel. In the Four360 S, children up to a height of 105 cm may ride reboard. Experts even explicitly recommend this, as children are better protected in this position in the event of a collision.

In the 100–150 cm height class, the 5-point harness system is removed and the child is secured with the car's 3-point harness.

## features

- Rotates 360° for access from both sides
- Individually adjustable Isofix connectors
- 12-way height adjustable headrest
- Removable comfort insert
- Additional removable head cushion
- 5-point harness system automatically grows with the child up to a height of 105 cm and a maximum body weight of 18 kg
- Adjustable in 5 sitting and resting positions (76–105 cm) in the direction of travel
- Belt and lock padding
- Suitable for all age groups
- Reboard from birth to 105 cm body height (max. 18 kg, approx. 4 years)
- Can be used in driving direction from 15 months / 76 cm
- Optimal harness routing due to harness guides for the size category 100–150 cm
