

# Four360 SL

ECE R129/04, 40–150 cm

Discover the Four360 SL – the perfect companion for small passengers in the 40 to 150 cm height category.

The childhood hero allows children from birth to 105 cm (max. 18 kg, approx. 4 years) to travel safely in two reclining positions; from 76 cm (at least 15 months), the seat can be used in the direction of travel.

The Four360 SL cannot only be used in all size classes, but also offers maximum safety and comfort. The 14-position height-adjustable headrest ensures that the child's head is optimally protected.

Practical features: The new EasyAdjust system allows the seat to rotate 360 degrees and change position using just one hand. For use in the 100 to 150 cm size category, the five-point harness system is also simply stowed away in the child car seat. Isofix in combination with a support leg ensures a smooth installation.

- Easy and safe installation with Isofix and support leg
- Rotates 360° for getting in and out on both sides in every size category
- EasyAdjustSystem (EAS): Rotation and position change with simple one-hand operation
- Individually adjustable Isofix connectors
- 14-position height-adjustable head support
- Removable comfort insert
- Additional removable head support cushion
- Automatically growing 5-point harness system
- Reboard from birth to 105 cm body height (max. 18 kg, approx. 4 years)
- Reboard adjustable in 2 reclining positions (position R1: 40–75 cm; position R2: 76–105 cm)
- Transport in the direction of travel possible from 76 cm (at least 15 months)
- Adjustable in the direction of travel in 4 sitting and resting positions (up to 125 cm)
- Easy to convert for use in the 100–150 cm size range: 5-point seat belt is simply stowed in the child car seat without having to be removed
