

KITCHEN BASKET

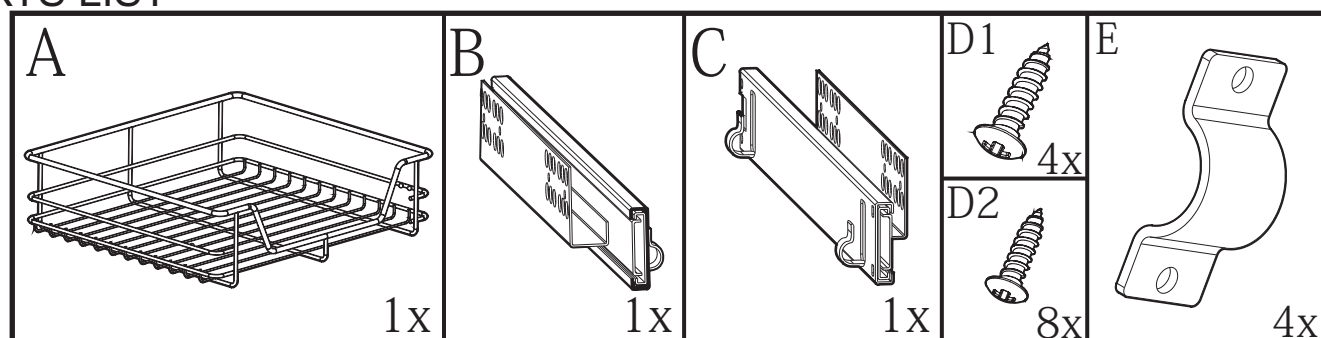

ORIGINAL INSTRUCTION MANUAL

DEAR CUSTOMER,

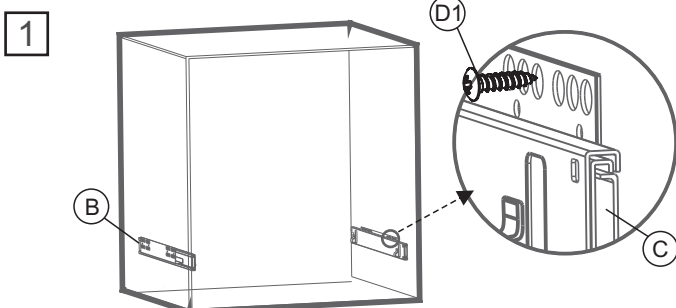

Thank you for choosing our product. Please read this manual carefully before assembling or using the product, to avoid damage caused by improper use.

manual has to be passed on along with the product.

PARTS LIST

ASSEMBLY

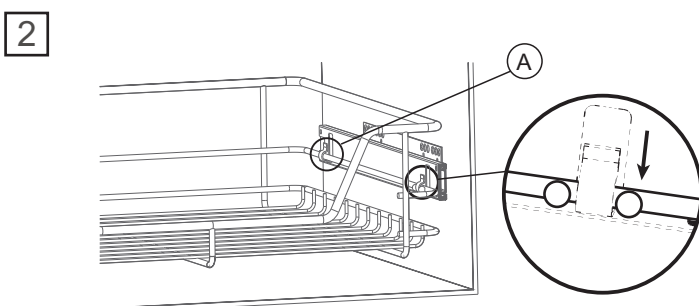

Step 1: Assembly of the rails

Drill holes in the correct positions of the side boards after taking all necessary measurements at the site. Then install the two guide rails (B) and (C) respectively onto the side boards of your cabinet with screws (D1)

Caution: If you want to use the screw holes in the second and third rows, pull the rails out completely before the installation.

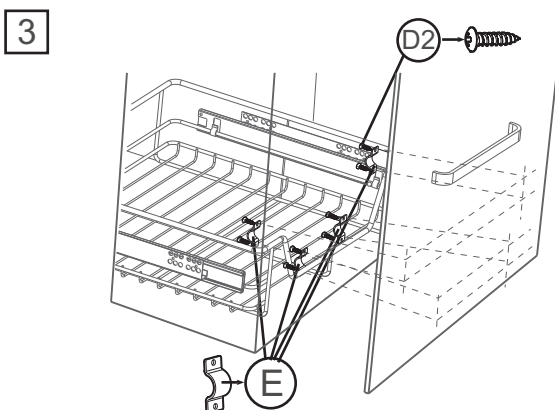

Step 2: Attaching the basket

Place the basket (A) onto the guide rails (B) and (C). Make sure that the basket can be pulled out smoothly.

Caution: After attaching the basket, check if the hooks of the guide rails securely snap into the corresponding positions of the basket (as shown in the figure)

Step 3: Secure to the front board

According to the measurements you have taken, drill holes in the corresponding positions of the front board of the cabinet. Now attach the fixing clamps (E) to the front framework of the basket and then fix the clamps (E) securely onto the front board of your cabinet with screws (D2). After that, check again to make sure that the basket can be pulled out smoothly.
